- ☐ The QAPI Plan describes:
  - o Design and Scope of the QAPI Program
  - o Governance and Leadership
  - o Feedback, Data Systems, and Monitoring
  - o Performance Improvement Projects (PIPs)
  - o Systematic Analysis and Systematic Action
  - Federal Regulations:
    - §483.75(e)(1) The facility must set priorities for its performance improvement activities that focus on high-risk, high-volume, or problem-prone areas; consider the incidence, prevalence, and severity of problems in those areas; and affect health outcomes, resident safety, resident autonomy, resident choice, and quality of care.
    - §483.75(e)(2) Performance improvement activities must track medical errors and adverse resident events, analyze their causes, and implement preventive actions and mechanisms that include feedback and learning throughout the facility.
