Memory Care Risk Management Self-Assessment

The following tool is designed as a self-assessment for memory care services offered by senior care communities. This tool is not designed to evaluate all potential risks.

Written	Program	Plan
---------	---------	------

	admiss approp staffing perform	ion criter riate) car g, therape mance im	ory Care Program is in place that describes the scope of services provided, resident ria, person-centered care planning, primary care provider and mental health provider (as re requirements, medication review and management, staff competency and training, unit entire activities, resident discharge and transfer criteria and quality assurance and approvement monitoring contracted mental health clinical providers			
Mem	nory Ca	re Polic	ies and Procedures			
The fo	llowing p	olicies ar	nd procedures are in place:			
	A mem	A memory care management policy is in place that includes assessment, interventions, monitoring,				
	resider	nt-center	ed care planning including behavioral support as needed, and documentation			
	Management of aggressive behavior					
	Manag	Management of a behavioral emergency				
	Management of a medical emergency					
	Managing elopement risk and elopement response					
	A writt	en psych	otropic medication policy is in place			
	0	The pol	icy includes the frequency of medication review and provider follow-up			
	0	A proce	ss is in place for Gradual Dose Reduction (GDR) medication review of psychotropic			
	0		icy addresses care planning requirements for medication "black box" warnings			
	A writt	=	int policy or restraint-free policy is in place			
	0		traint policy addresses			
			Use of restraints – least restrictive			
			Provider orders			
			Resident monitoring			
			Resident consent			
			Quality review			
			Documentation			

O The restraint-free policy addresses least restrictive interventions

prevention, identification, investigation, protection, and reporting/response

☐ A written abuse, neglect and exploitation policy and procedure includes definitions, screening, training,

dmissi	on
Pre-Ad	madmission criteria are in place mission screening includes: Medical history Current medications, including herbal supplements and over-the-counter medications Wandering and elopement history History of falling Behavioral health history History of physical aggression History of sexual aggression History of abuse and neglect Suicide risk and past history Current behaviors ats with a primary, unmanaged mental health diagnosis are not admitted nal sex offender screening is completed on all potential admissions
	al health professional and/or the resident's primary care physician is consulted prior to admission acility is uncertain about their ability to care for the resident
ssion	
0	ion screening includes (unless previously obtained): Current medical history Current medications, including new medications within the past 30 days Assessments (not limited to) Fall risk assessment Elopement risk assessment Skin risk assessment (head to toe) Cognitive assessment Pain assessment Social history (including prior work history) Behavioral health history History of physical aggression History of sexual aggression History of abuse and neglect Suicide risk and past history Current behaviors
A resider resider a sched Based o plan is	ent-centered care plan is started on admission. The multi-disciplinary team is involved. The st care plan is updated with changes in condition and care needs and reviewed for effectiveness on fulled basis on provider orders/recommendations and current history, a resident-centered behavioral support developed on admission including behavior triggers/ antecedent events and interventions vior log is initiated per facility policy and procedures (as applicable)
	Pre-Adri O O O Resider A natio A ment if the fa

Risk and Quality Management

Resident behavior events that result in injury to self or others are reported on an incident report				
The incident investigation addresses causal and contributing factors				
Resident behaviors are reviewed at morning meeting (e.g., new admissions, behavior incidents and				
residents with change in behavior).				
O The medical record is reviewed for complete documentation and the Care Plan is reviewed for				
updated interventions				
Weekly At-Risk Meetings address the effectiveness of interventions				
The Monthly (preferred) or Quarterly Quality Assurance and Performance Improvement (QAPI)				
Committee reviews patterns and trends related to behavior incidents and emergency transfers
